1 App download:

Download the Smart Cooking application from Google Play for Android devices or from the App Store for devices running iOS.

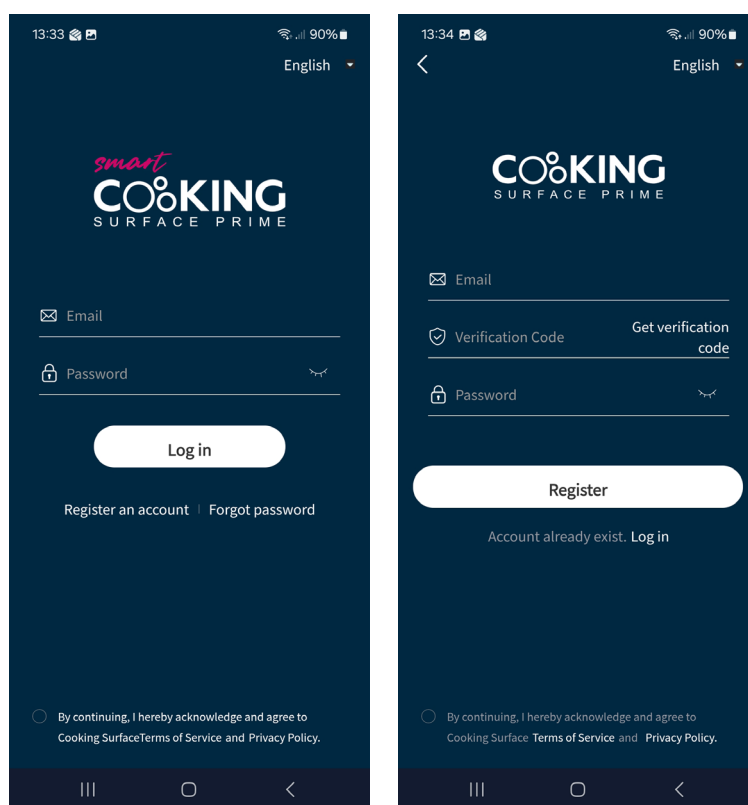

If you prefer, you can also download the application by scanning the QR codes displayed on your Smart Cooking LCD control panel, within the ASSISTANCE / APP menu.

2 Registration and login:

Once the application has been downloaded, you will need to create a new user account to access the content. If you already have an account, simply log in using your email address and password.

To register for the first time, check your email inbox and enter the verification codes sent to you in the App.

Please note that the verification code will expire after 5 minutes. If you do not complete the registration process within this time, you will need to request a new verification code and repeat the process.

3 Pairing your Smart Cooking with the app:

STEP 1:

After logging in, you will be taken directly to the main cooking screen.

To pair your Smart Cooking with the application, first enable Bluetooth on your mobile device and tap the (+) symbol to add Smart Cooking to your list of devices.

STEP 2:

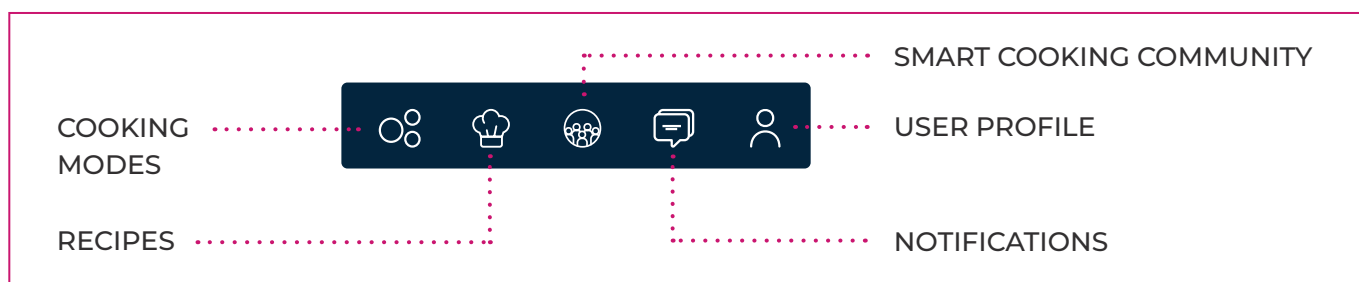

Wait for the device to appear in the search results and then tap the pairing symbol  to establish the connection.

NOTE:

Make sure that your Smart Cooking is turned on and that the Bluetooth symbol is visible at the top of the LCD control panel. 

Once your Smart Cooking has been paired with the application, the Bluetooth symbol status will change and will appear in blue on the LCD screen.

4 Bottom navigation bar:

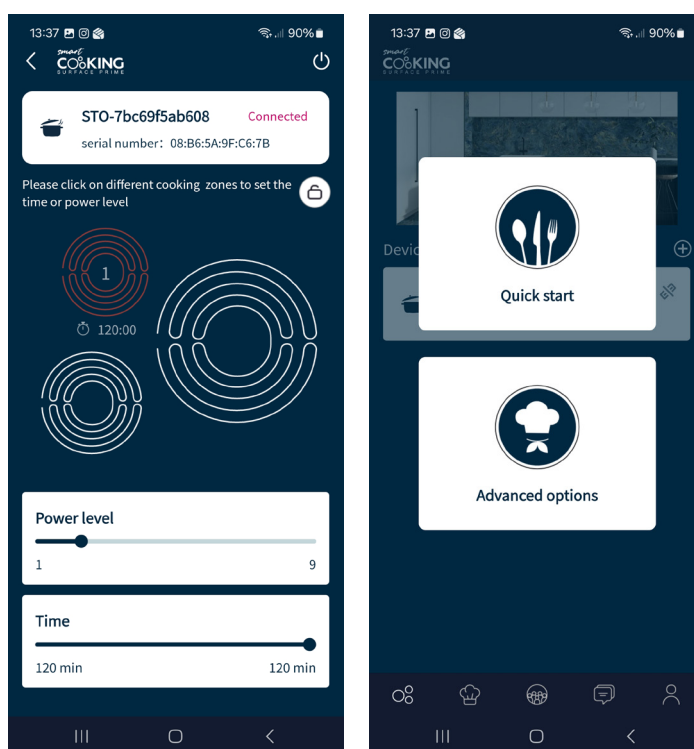

5 Cooking modes:

Once the device has been paired, it will appear as connected.

Then, select the device to access the desired cooking mode, just as you would from your Smart Cooking control panel.

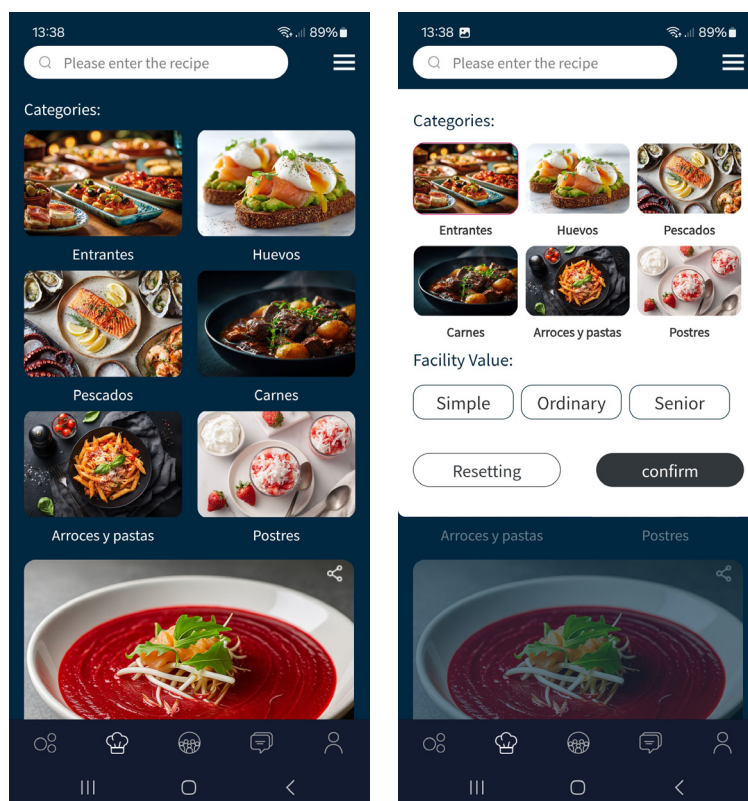

Select **QUICK START** to begin cooking or **ADVANCED OPTIONS** to access the programmed functions.

6 Recipes section:

Visit the Cooking Surface recipes section to discover how to prepare the Chef's finest dishes.

You can search by keywords or filter recipes by category and difficulty level to quickly find recipes that best suit your preferences.

7 Smart Cooking community:

Access the Smart Cooking Community to discover upcoming Cooking Surface events, participate in giveaways and contests, explore news and trends from the culinary world, and stay informed about our latest product updates... and much more!

8 Notifications:

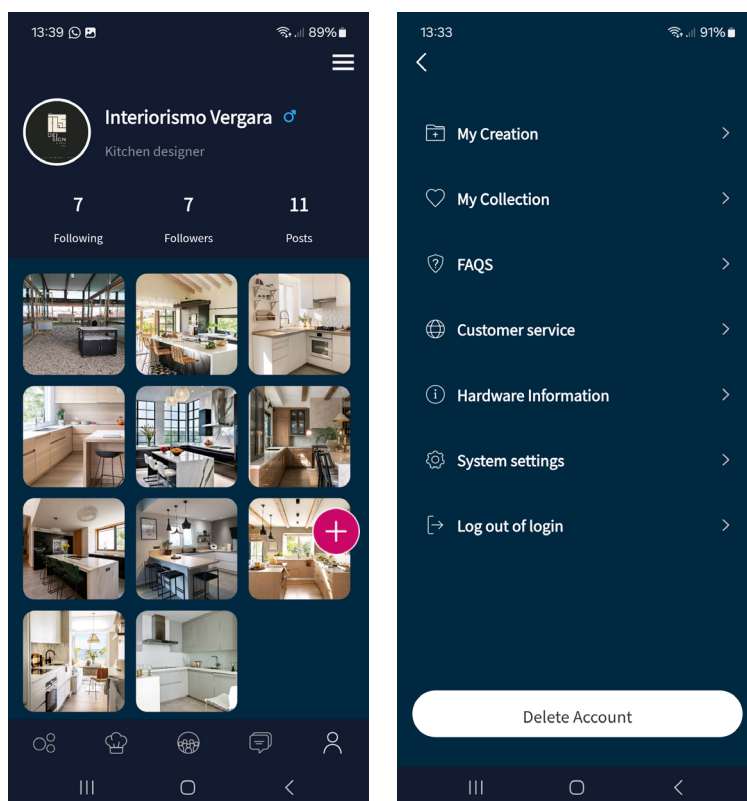

Check notifications for new comments on your posts, new followers, likes, and instant messages from your friends.

You can also stay informed about new Smart Cooking updates through system notifications.

9 **User profile:**

Access your personal space to start sharing posts on your profile.

To add a new post, tap the (+) symbol, select one or more photos, enter a title, and then press the Publish button.

From your personal space, you can access all your posts, as well as edit or delete them whenever you wish.

In this section, you will also be able to access all account settings features and your collections, contact Customer Support directly, and consult the frequently asked questions about the Smart Cooking invisible induction system, where you can resolve any doubts or questions you may have.
